DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Group 1 (Type of Layer Pattern):

- a. Species 1 (Fig. 7):
- b. Species 2 (Fig. 8):
- c. Species 3 (Fig. 9):
- d. Species 4 (Fig. 10):
- e. Species 5 (Fig. 11):

Note: The linear density profile in group 2 must match the type of layer pattern selected in group 1. It is not known if all the density profiles and/or layers patterns were listed.

Group 2 (Type of linear density profile):

- a. Species 1 (Fig. 2, 1st Example):
- a. Species 2 (Fig. 2, 2nd Example):
- b. Species 3 (Fig. 2, 3rd Example):
- c. Species 4 (Fig. 2, 4th Example):

- d. Species 5 (Fig. 3, 5th Example):
- e. Species 6 (Fig. 3, 6th Example):

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, it is uncertain what claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. A telephone call was not made to Mr. Gerald R. Boss on 12 March 2005 to request an oral election to the above restriction requirement due to the complexity of this restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
